

SS 2012

Dynamically Reconfigurable Systems

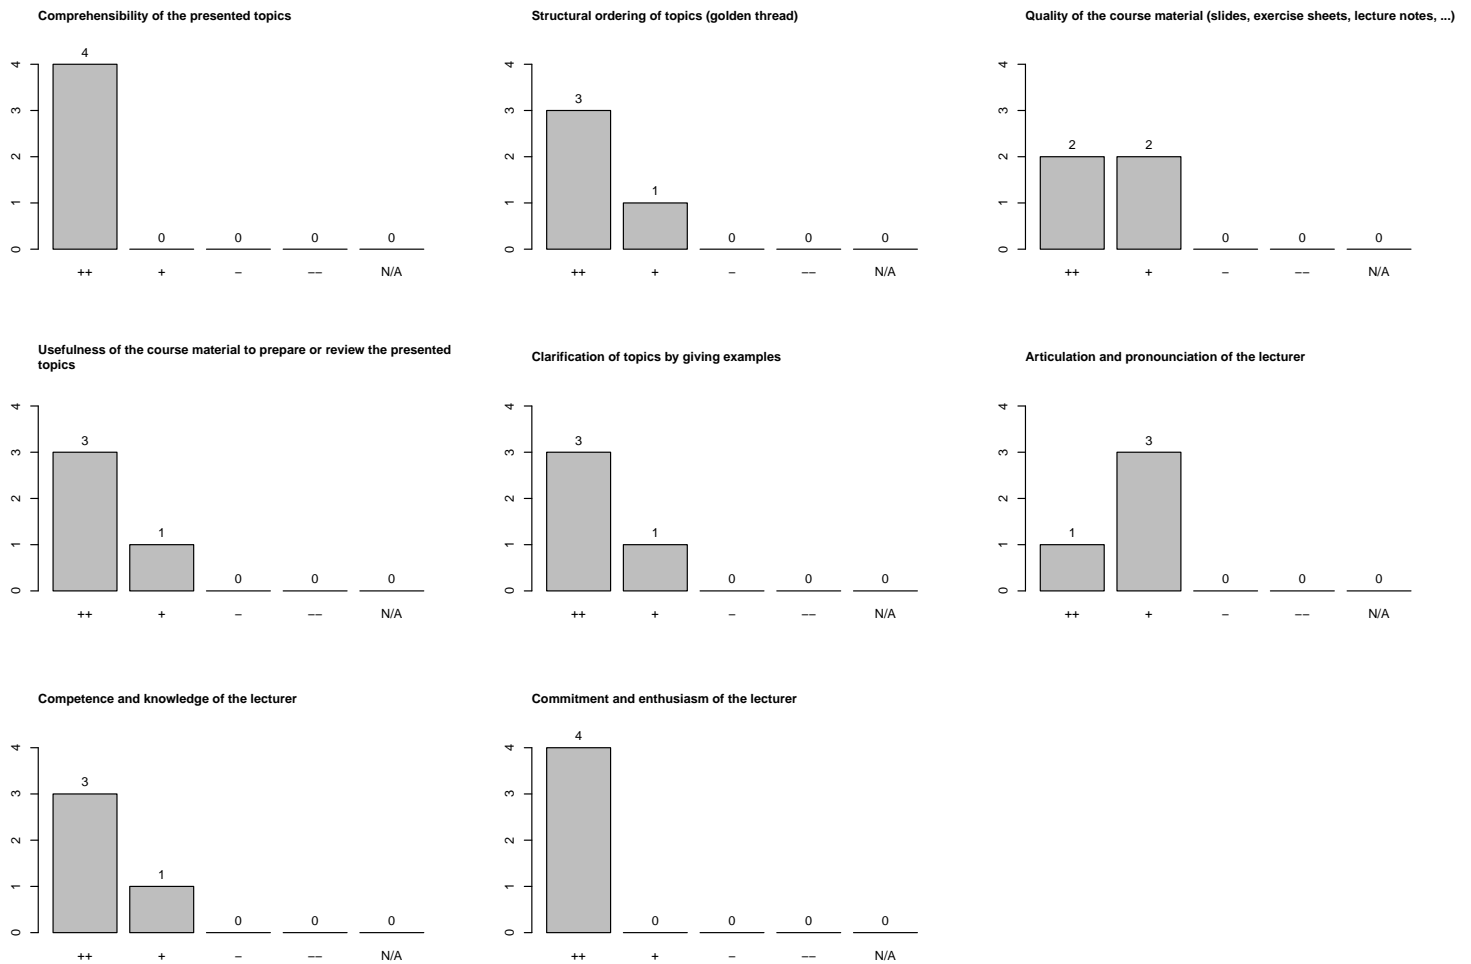

PROF. DR. JOACHIM KLAUS ANLAUF

Average grade: 1.2

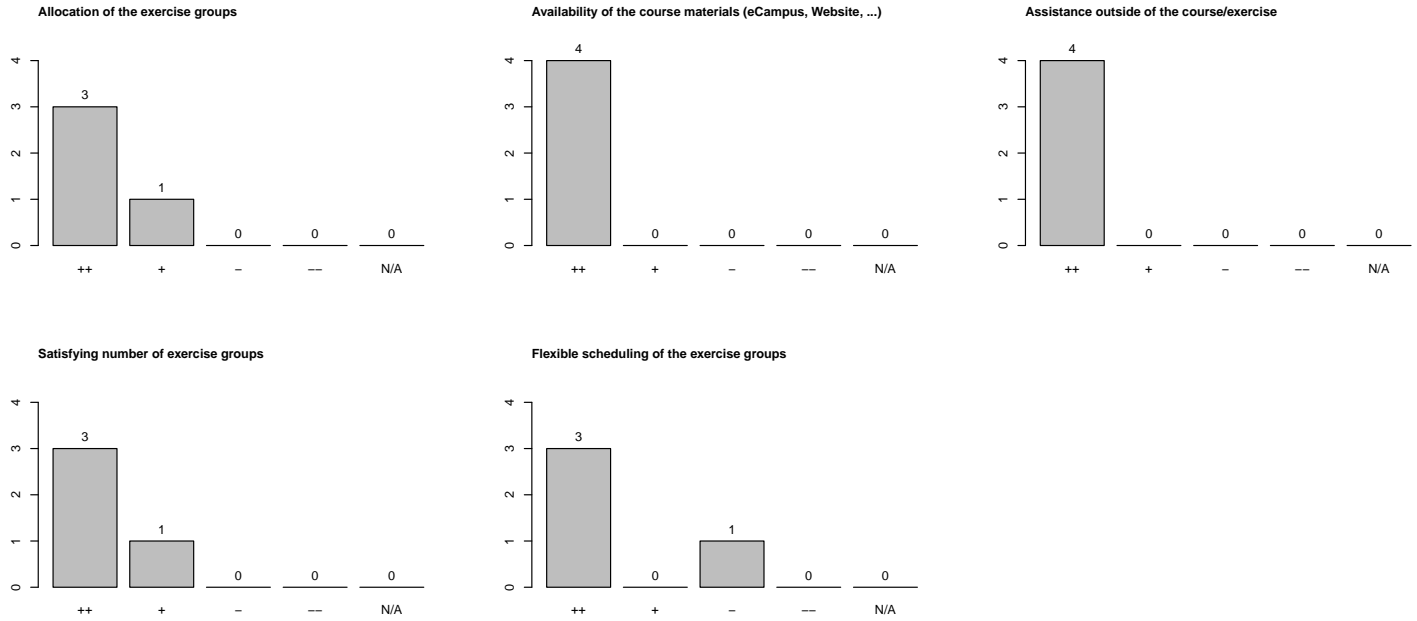

Participants (evaluated survey sheets): 4

- Bachelor: 1
- Master: 2
- Diploma: 1
- Lectureship: 0
- Minor subject: 0
- FFF: 0

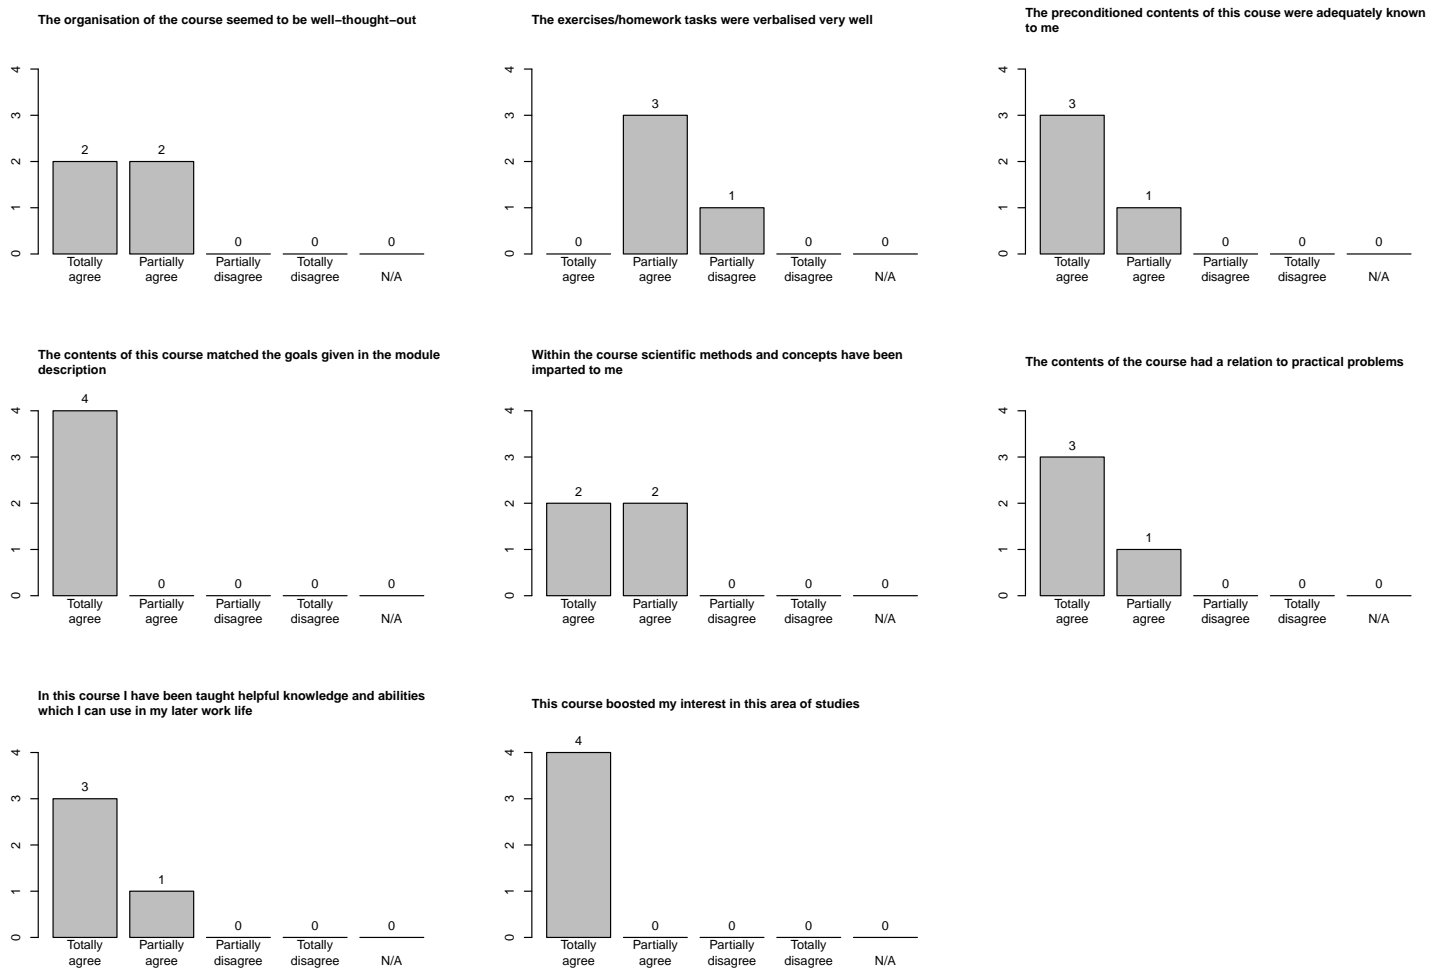

1 Please rate the quality of the lecturer's teaching.

2 Please rate the organisation of the course.

3 Please rate how the following statements fit your opinion.

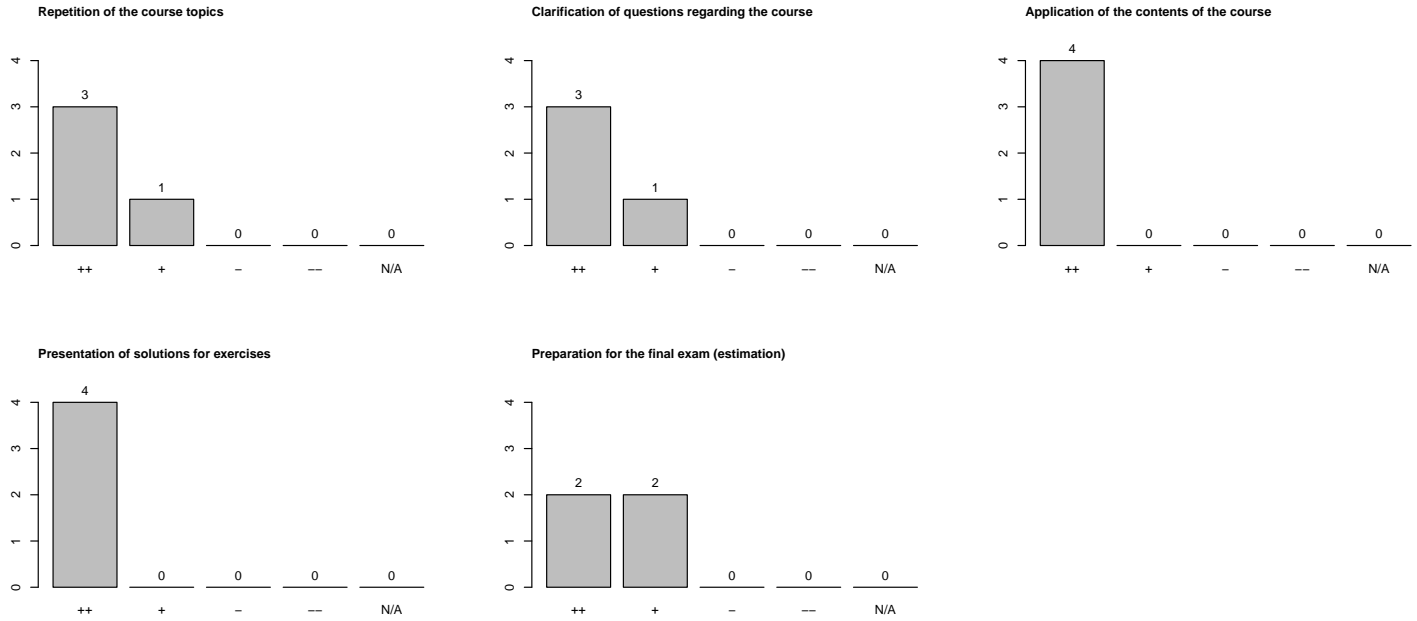

4 Please estimate the effort and complexity of this course.

5 How many hours per week did you spend on this lecture (including the visit of the lecture and exercise groups) on average?

6 Please assess the value of the exercise groups to help understanding the presented topics.

7 Please rank the size of the rooms and exercise groups.

8 Please compare your interest in the topics of the course before and after visiting the course.

9 Please give an overall rating of the course on a scale from excellent (1) to very poor (6).

10 Comments

Which things of the course did you like?	What could be improved?	You can leave remarks and feedback to our survey here.
Best lecture I have attended so far. With this lecture, Prof. Anlauf masterfully proves that he is the ultimate reference in the area of FPGAs and technical computer science. It was entertaining, comprehensive and provided the perfect amount of insight in the field of dynamically reconfigurable systems.	Exercise sheets could be more productive and focus more on relevant topics.	
Depth of knowledge about FPGA	More practical hands-in issues.	it's better to be online! save trees.
Topics were very interesting. Questions were always answered within the lecture.	The organisation of the exercises was a bit confusing in the beginning.
