

SS 2012

Intelligent Learning and Analysis Systems: Data Mining and Knowledge Discovery

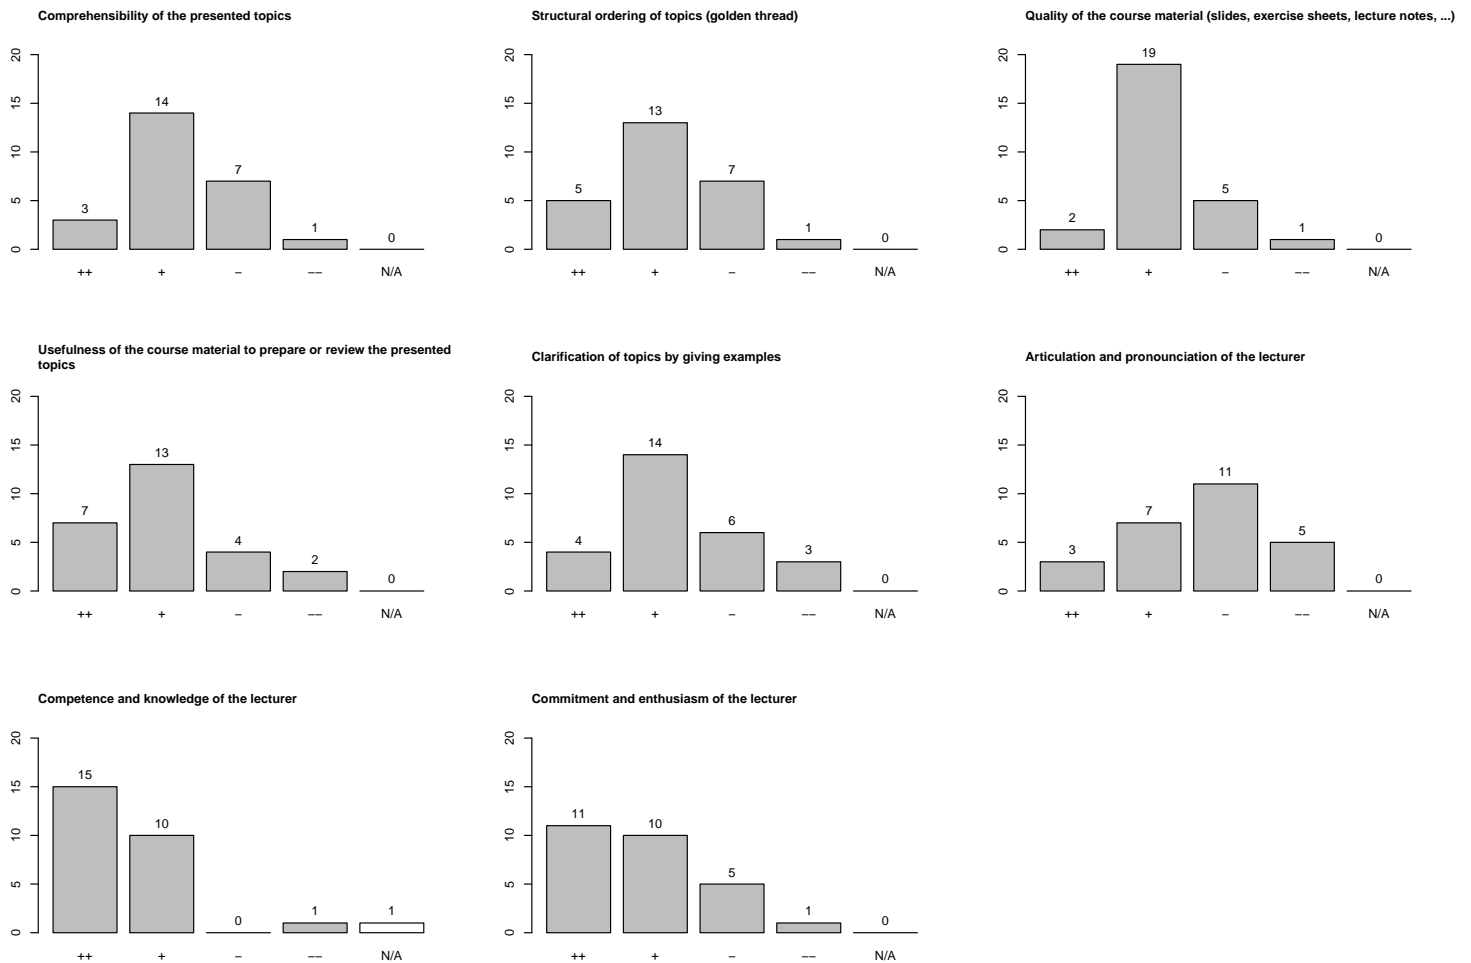

PROF. DR. STEFAN WROBEL

Average grade: 2.3

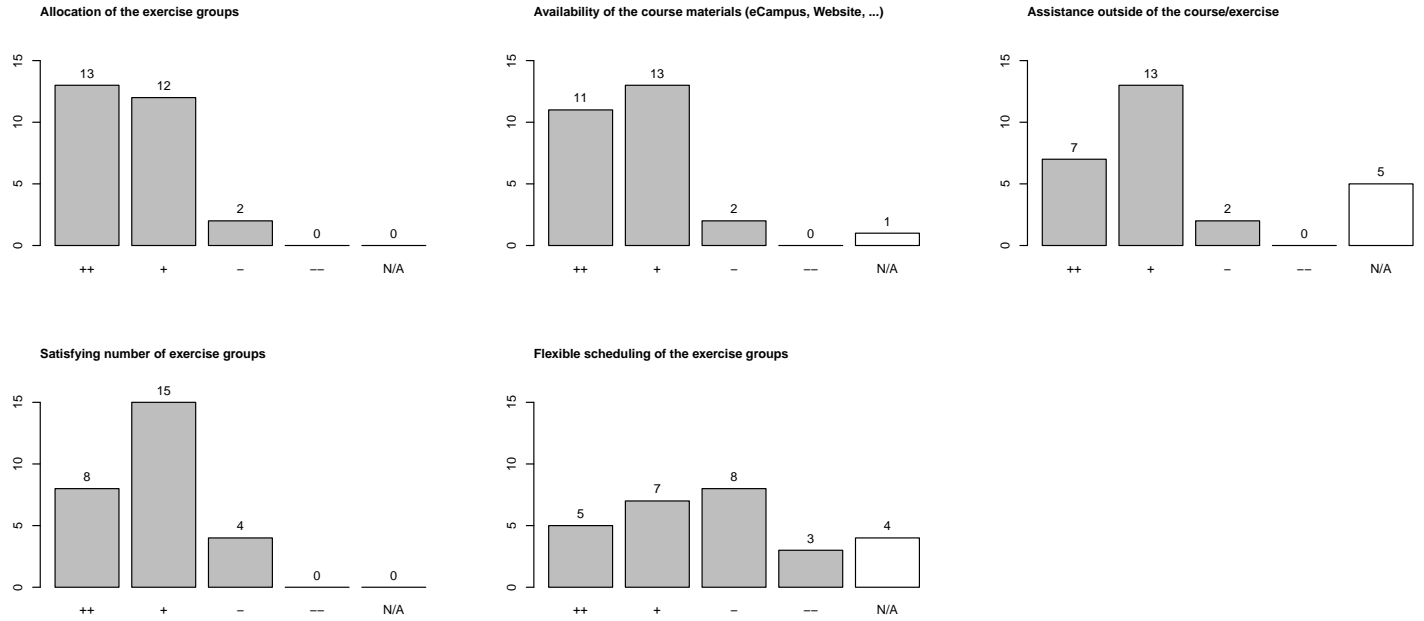

Participants (evaluated survey sheets): 27

- Bachelor: 0
- Master: 25
- Diploma: 1
- Lectureship: 0
- Minor subject: 0
- FFF: 0

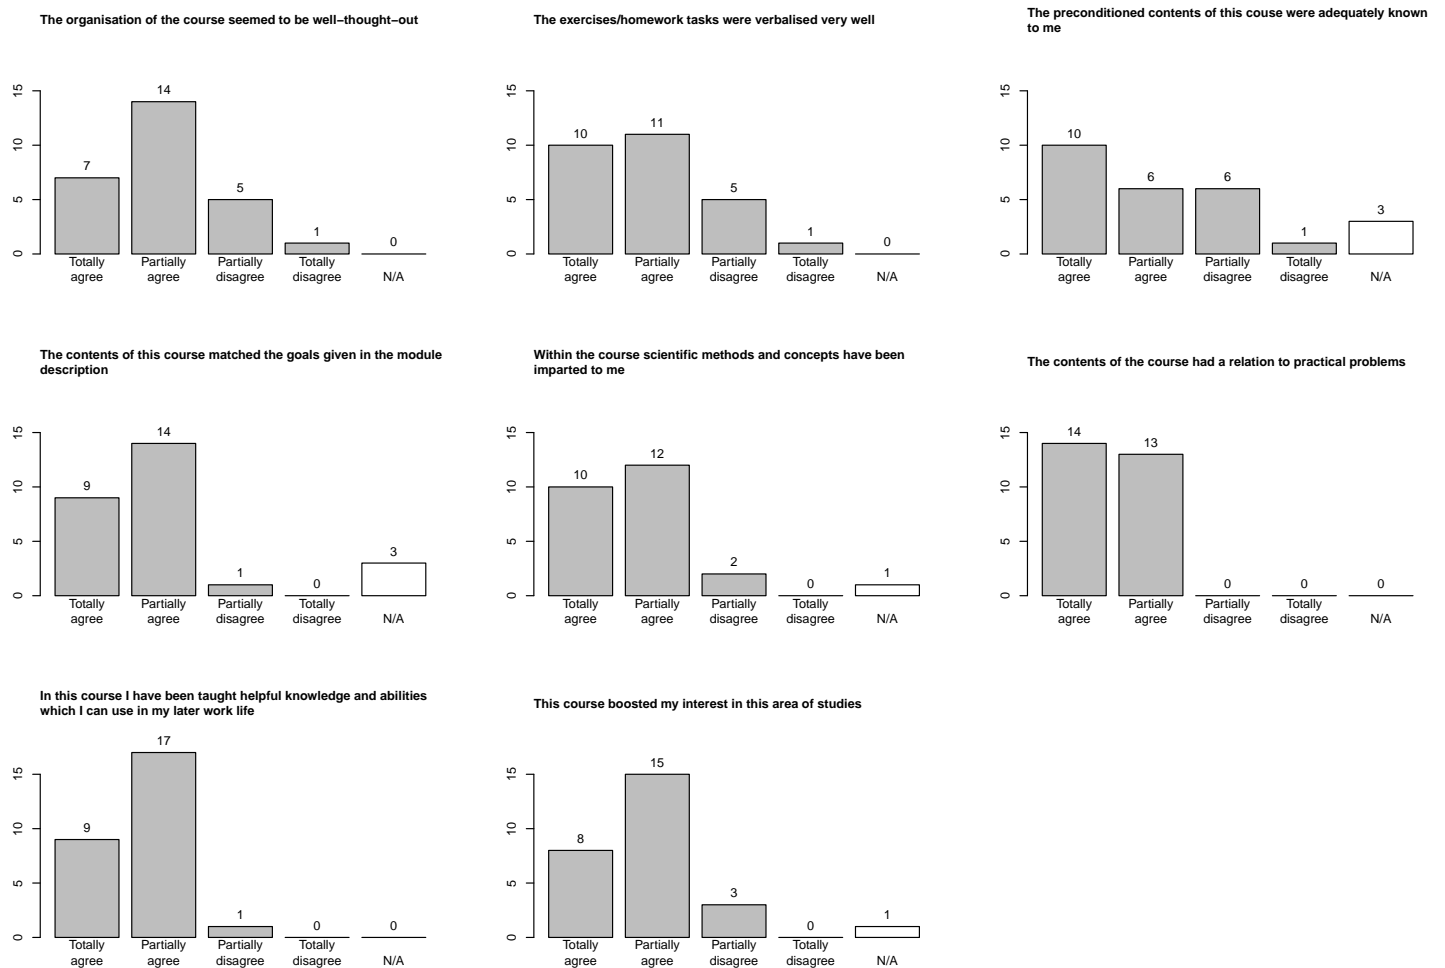

1 Please rate the quality of the lecturer's teaching.

2 Please rate the organisation of the course.

3 Please rate how the following statements fit your opinion.

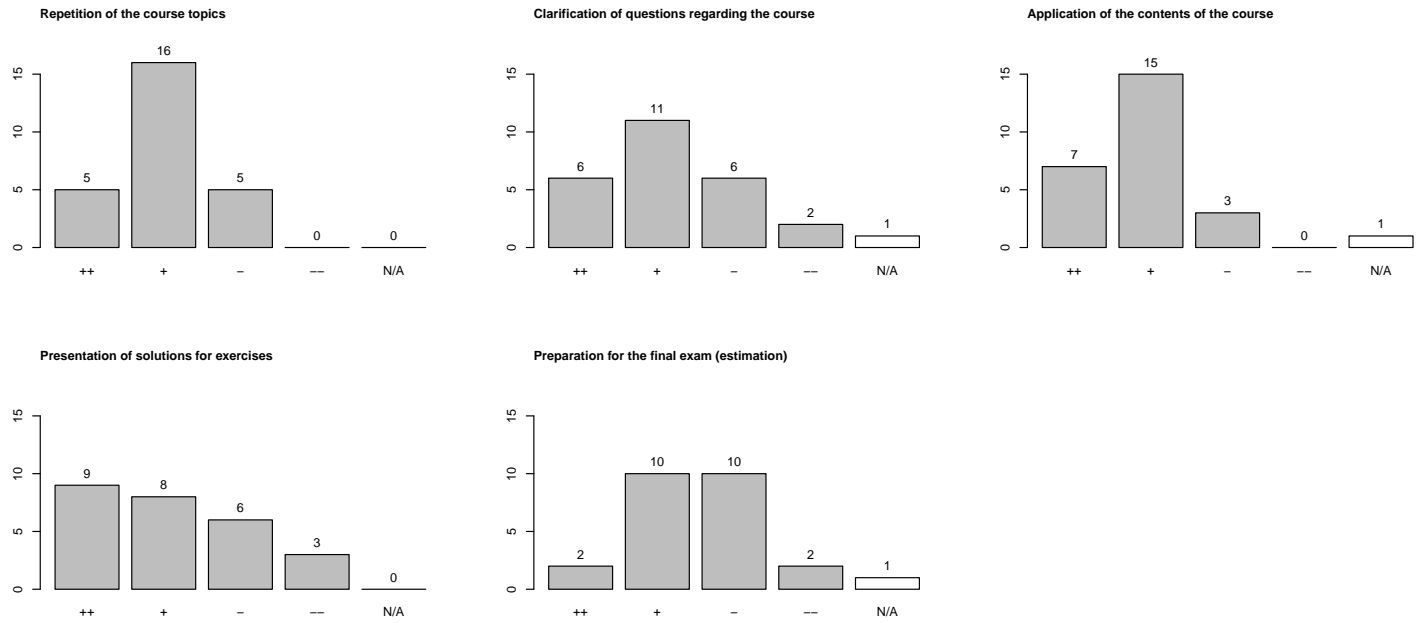

4 Please estimate the effort and complexity of this course.

5 How many hours per week did you spend on this lecture (including the visit of the lecture and exercise groups) on average?

6 Please assess the value of the exercise groups to help understanding the presented topics.

7 Please rank the size of the rooms and exercise groups.

8 Please compare your interest in the topics of the course before and after visiting the course.

9 Please give an overall rating of the course on a scale from excellent (1) to very poor (6).

10 Comments

Which things of the course did you like?	What could be improved?	You can leave remarks and feedback to our survey here.
:)	:)	:)
The exercise discussions were good & informative	There could be more material available for reference	
	1) Midterm date flexibility 2) Some of time exercise topics	N/A
Algorithms and real application of them	The flexibility of the mid term date exam. Less Proofs, more assignments	sehr gut!
	Tutor changed all the time	
1) nice slides and materials; 2) clearly formulated homework	1) more practical exercises; 2) more extensive examples on the slides	
	The complexity of course could be lower a bit by giving more examples and better solutions of exercises	
	More programming assignments would be nice	
	1. Precision of statements, claims, preconditions; 2. correctness...	
	For a 2x2 lecture, the effect for the exercise is too high	
1. Understanding of different strategies for algorithms (solving the task) 2. different topics	1. slides of Prof. Wrobel were unstructured in comparison to good slides of Dr. Horvath 2. Tutor wasn't present all the time and so had to be replaced a lot.
