SS 2012

Network Security

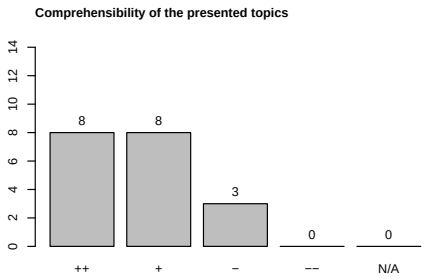
Prof. Dr. Peter Martini; Dr. Jens Tölle

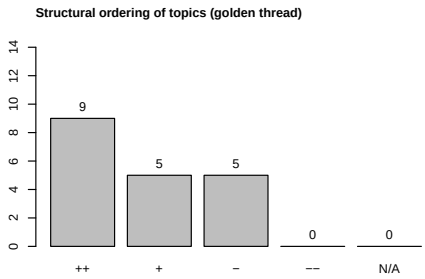
Average grade: 2.4

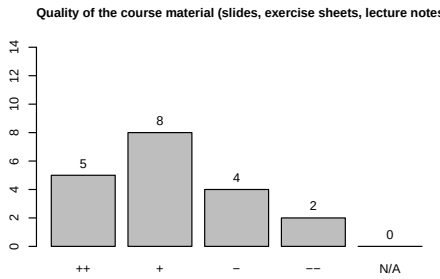
Participants (evaluated survey sheets): 19

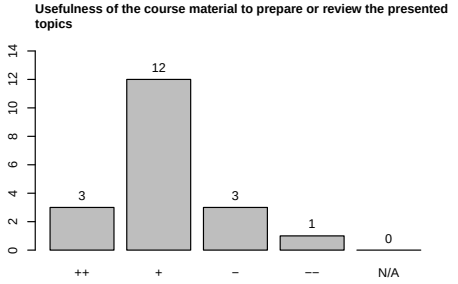
- Bachelor: 2
- Master: 14
- Diploma: 2
- Lectureship: 0
- Minor subject: 0
- FFF: 0

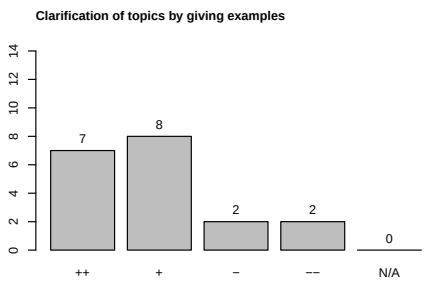
1 Please rate the quality of the lecturer's teaching.

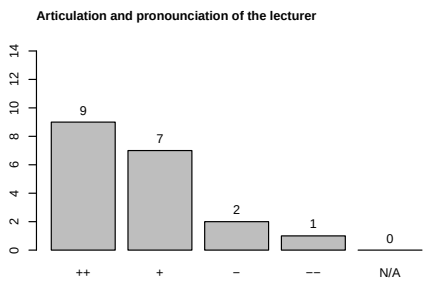


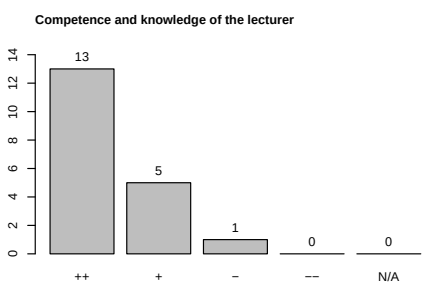


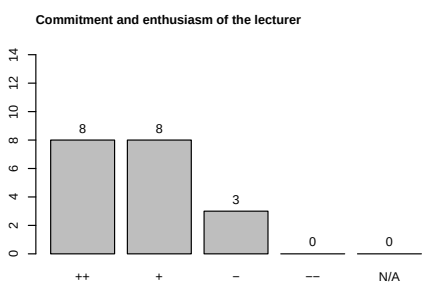






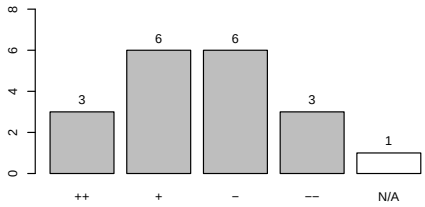




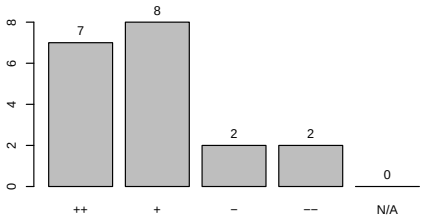


2 Please rate the organisation of the course.

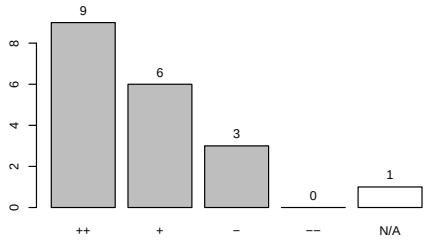
Allocation of the exercise groups



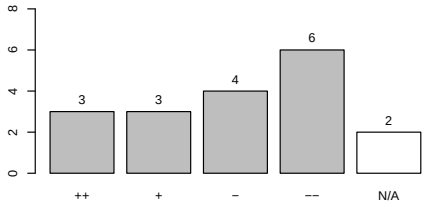
Availability of the course materials (eCampus, Website, ...)



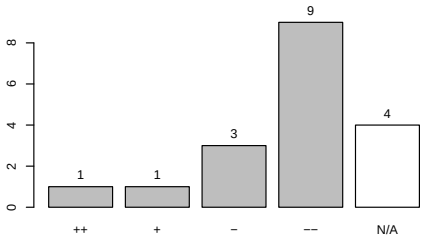
Assistance outside of the course/exercise



Satisfying number of exercise groups

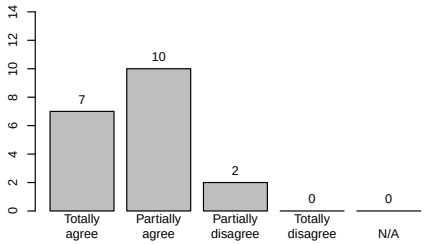


Flexible scheduling of the exercise groups

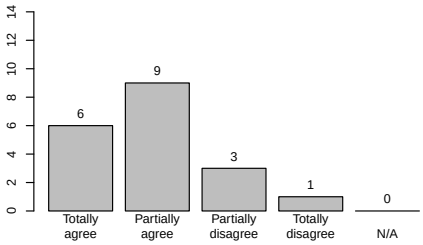


3 Please rate how the following statements fit your opinion.

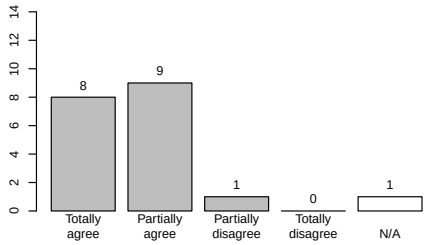
The organisation of the course seemed to be well−thought−out



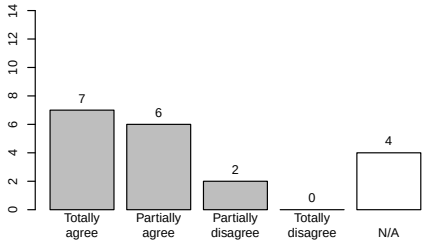
The exercises/homework tasks were verbalised very well



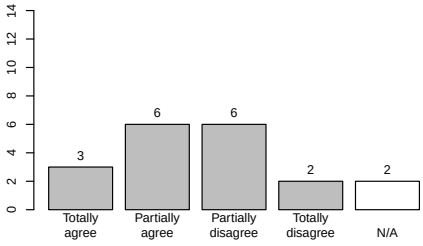
The preconditioned contents of this couse were adequately known to me



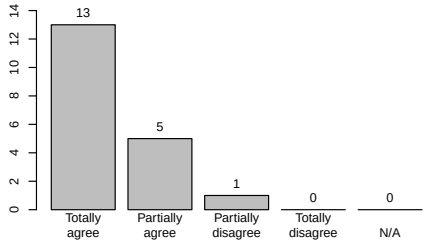
The contents of this course matched the goals given in the module description



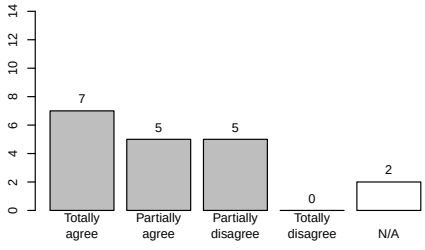
Within the course scientific methods and concepts have been imparted to me



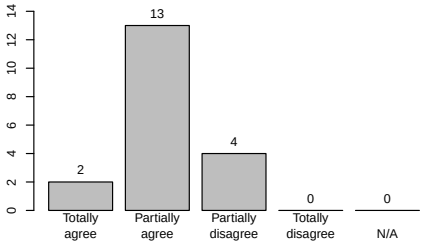
The contents of the course had a relation to practical problems



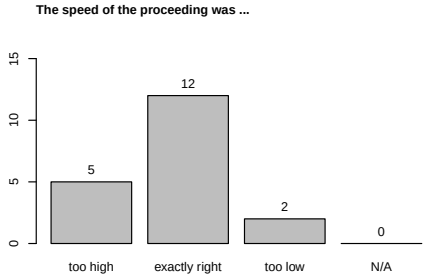
In this course I have been taught helpful knowledge and abilities which I can use in my later work life

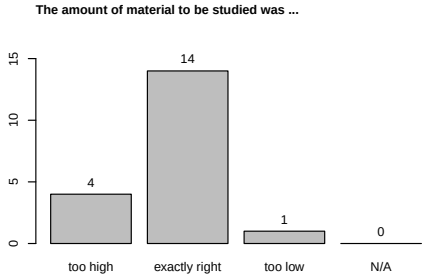


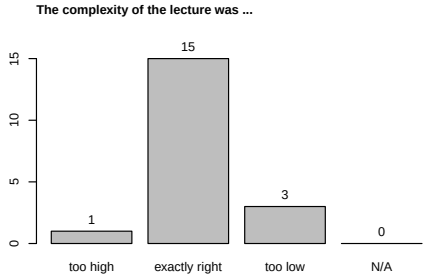
This course boosted my interest in this area of studies

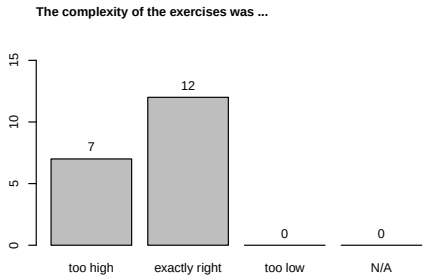


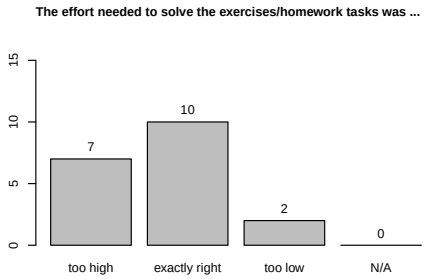
4 Please estimate the effort and complexity of this course.

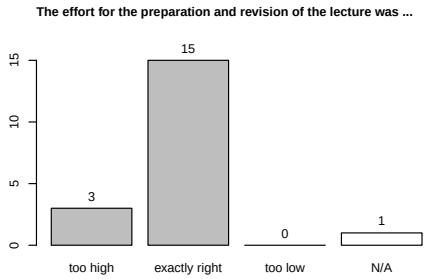




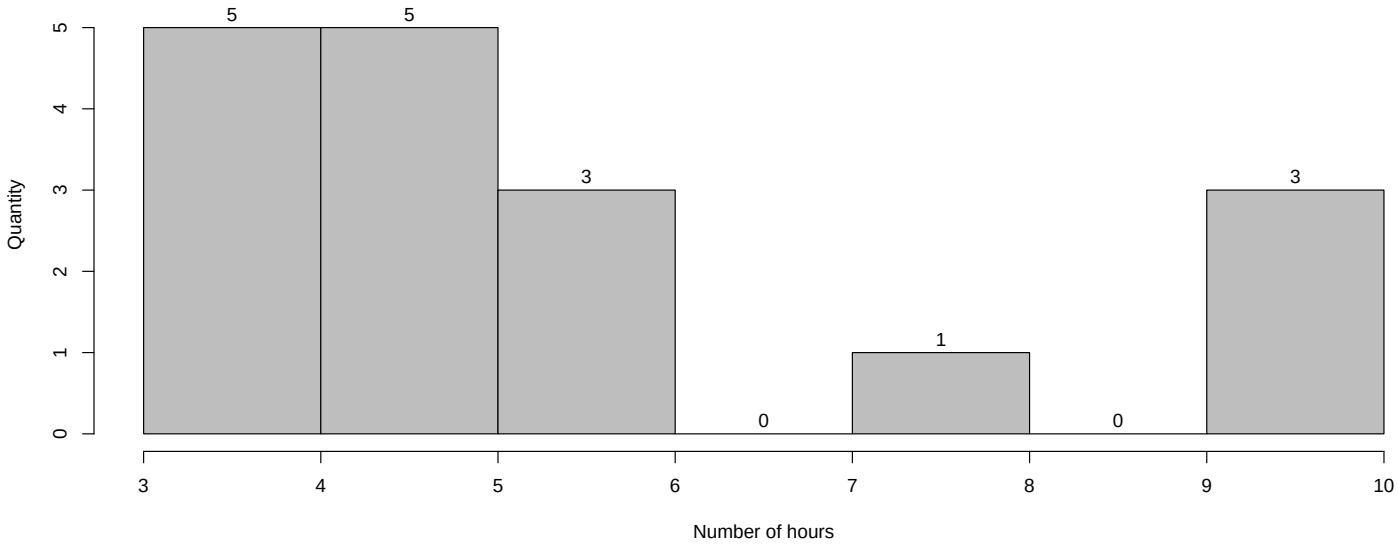




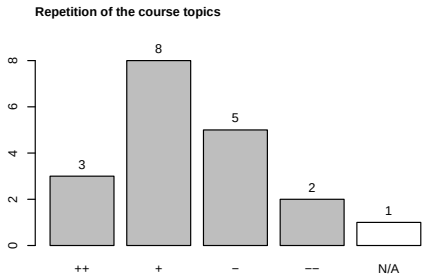


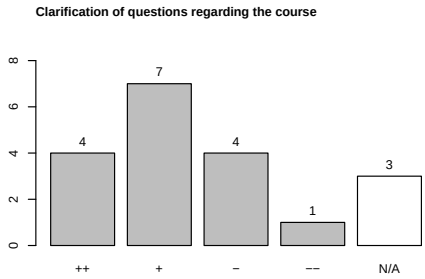


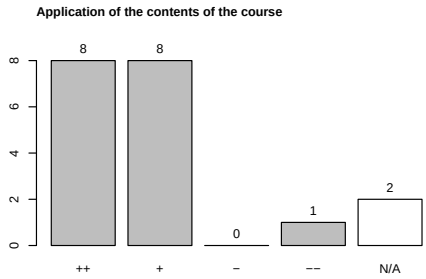
5 How many hours per week did you spend on this lecture (including the visit of the lecture and exercise groups) on average?

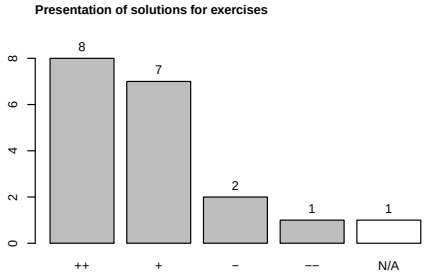


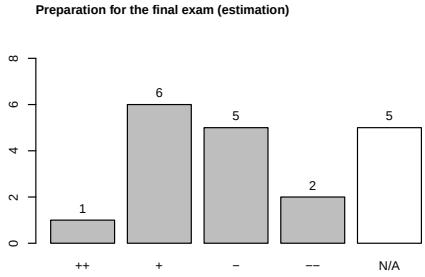
6 Please assess the value of the exercise groups to help understanding the presented topics.



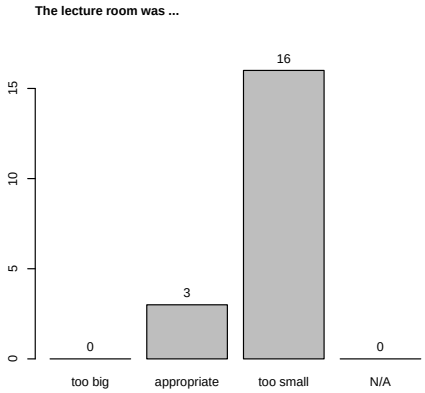


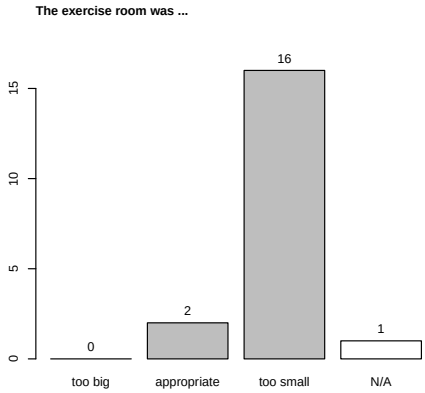


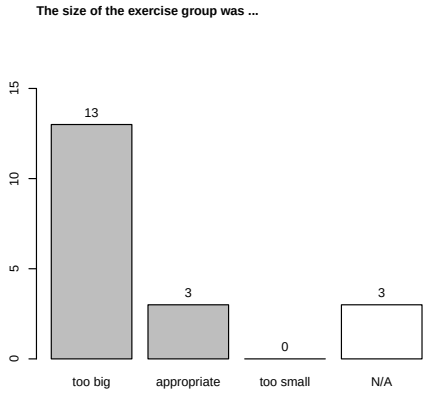




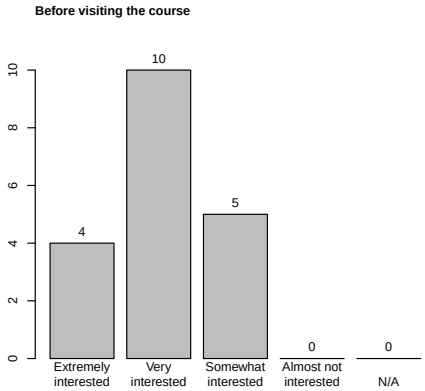
7 Please rank the size of the rooms and exercise groups.

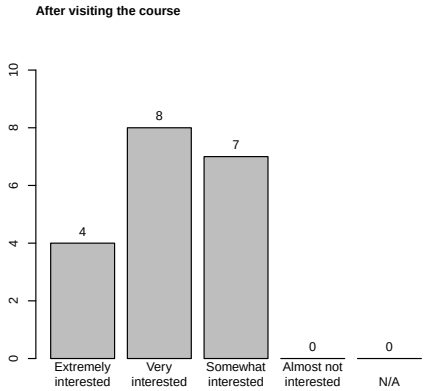




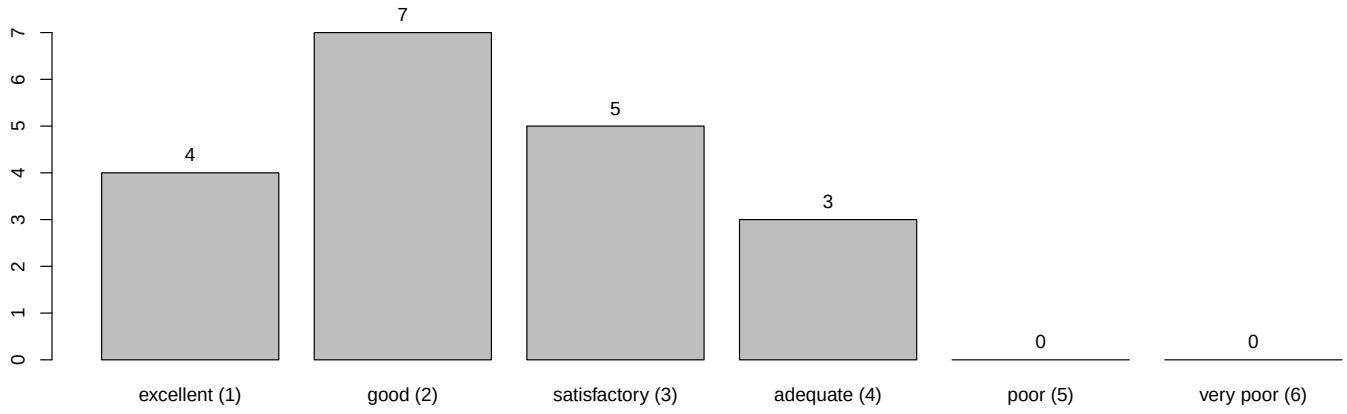


8 Please compare your interest in the topics of the course before and after visiting the course.





9 Please give an overall rating of the course on a scale from excellent (1) to very poor (6).



10 Comments

Which things of the course did you like?	**What could be improved?**	**You can leave remarks and feedback to our survey here.**
Praxisbezug war gut	1. eCampus für Folien etc. benutzen, 2. Miss-System abschaffen, 3. Keine Zulassungsbeschränkung, 4. Mehr Übungsgruppen	
Everything	Quirky exercise miss system used throughout Abt. IV. Sometimes non-trivial subtasks were present on exercise sheets. Examination is oral, in groups of 2. 2 Lecturers, 3 Tutors, chaos.	I hate writing on paper. Bring back the good old online system NOW.
	I think it would be better to teach new way of analyzing malwares and the way of protection against them. Its better to work more on practical part instead of theoretical.	
Contents of the lecture, Professors speech	Size of the classroom, Air condition of the classroom, Voice of the Professor or tutor, Exercise class	
	Give a deeper look into presented topics. The course gives a basic overview only. Some exercise tasks are not covered by the lecture.	Less topics, more details
The practical exercises	The slides: too crowded, often contain text rather than bullet points	
Exercises	There should be a script! The slides are no replacement.	
Practical exercises, Good lecturer	Only one exercise group is enough and if you have a collision you don't have to go to the exercise group but then you don't get a good feedback to your solution.	
	Exercise sessions & tasks	

Content was highly related to practical problems. No student who wants to develop/design software should miss this.	The workload in the beginning was a little too high, but later ok. Only one miss for exercises attendance or homework ist a little hard. Only one big exercise group	Zu Punkt 4 lieber 5 Abstufungen
