Rhetorically, the lecturer is really good, however his assistant could improve. As for the slides, it's rather the opposite. The tutor was good.	Overall understanding. Sometimes we couldn't solve the exercises from what we learned in the lecture. The mixture of topics is a bit confusing, I often didn't know how to relate things to each other.	
Professors are involved in their subject, like and enjoy it.	The speed is too fast. Some of things remains unclear. Too few needed information on slides.	
	Explanations of some topics could be done a lot more clear and formal. It would probably be better to reduce the number of topics but give each of them more time.

good articulation of lecturer (Frobel)	better articulation of second lecturer	
	Clear Definitions and more text on the slides	
	the guy who gave the lecture when the professor wasn't there, (3-4x), couldn't explain what he did there and was hard to understand because of his pronunciation	
The lecturer (Wrobel) esp. his kind of articulation, practical examples	better tutors	
	Questions 1 are regarding Mr. Wrobel. Mr. Horvath has bad pronunciation. Difficult to understand. Cannot explain very well.	

The teaching of professor Wrobel	The definitions and formalism in the script! Some examples could be replaced by clearer ones.	
Explanations of one lecture ”	Explanations of second lecture, course materials!!!	
	Lectures on PAC, Asking for Definitions in exam is shit	OK
	The mit-term exercise could be removed or expanded to the point that there a 2 exams for the semester and these exams are the only creitera for the admissio for the exam
