

WS 2012/2013

Advanced Learning Algorithms: Kernel Methods

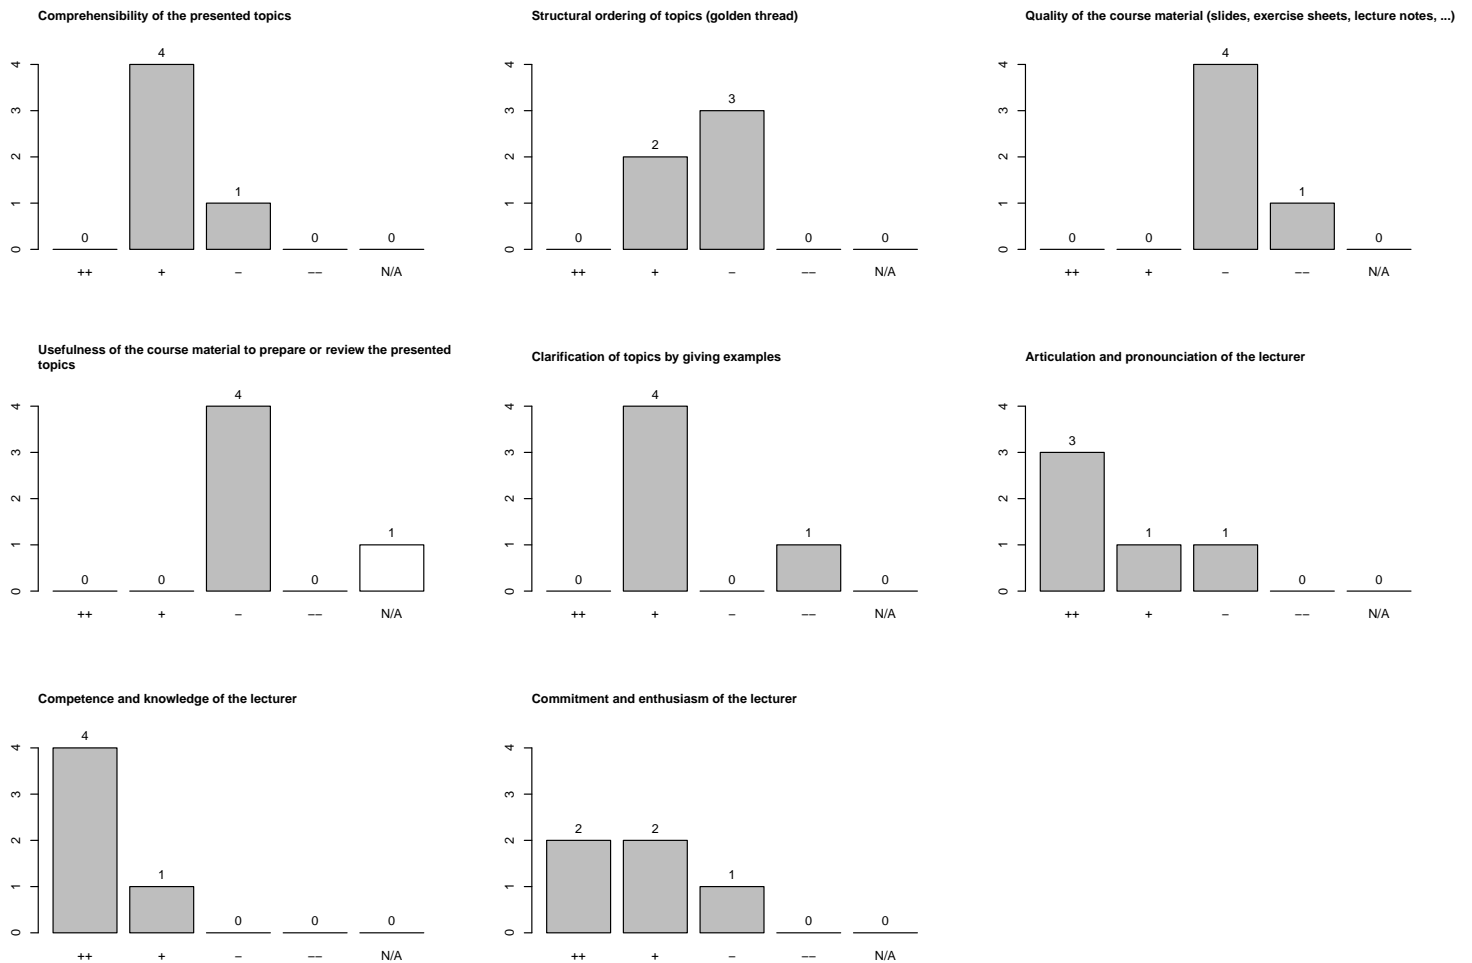

DR. THOMAS GÄRTNER, PROF. DR. STEFAN WROBEL

Average grade: 3

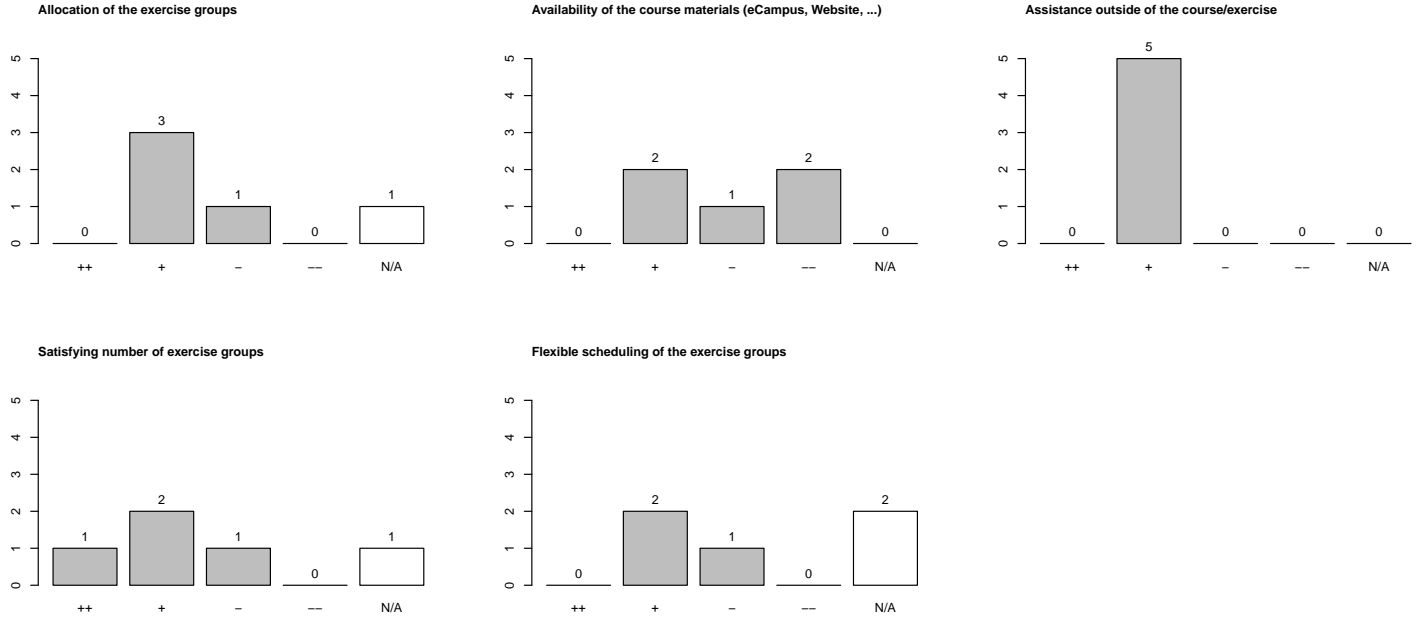

Participants (evaluated survey sheets): 5

- Bachelor: 0
- Master: 5
- Diploma: 0
- Lectureship: 0
- Minor subject: 0
- FFF: 0

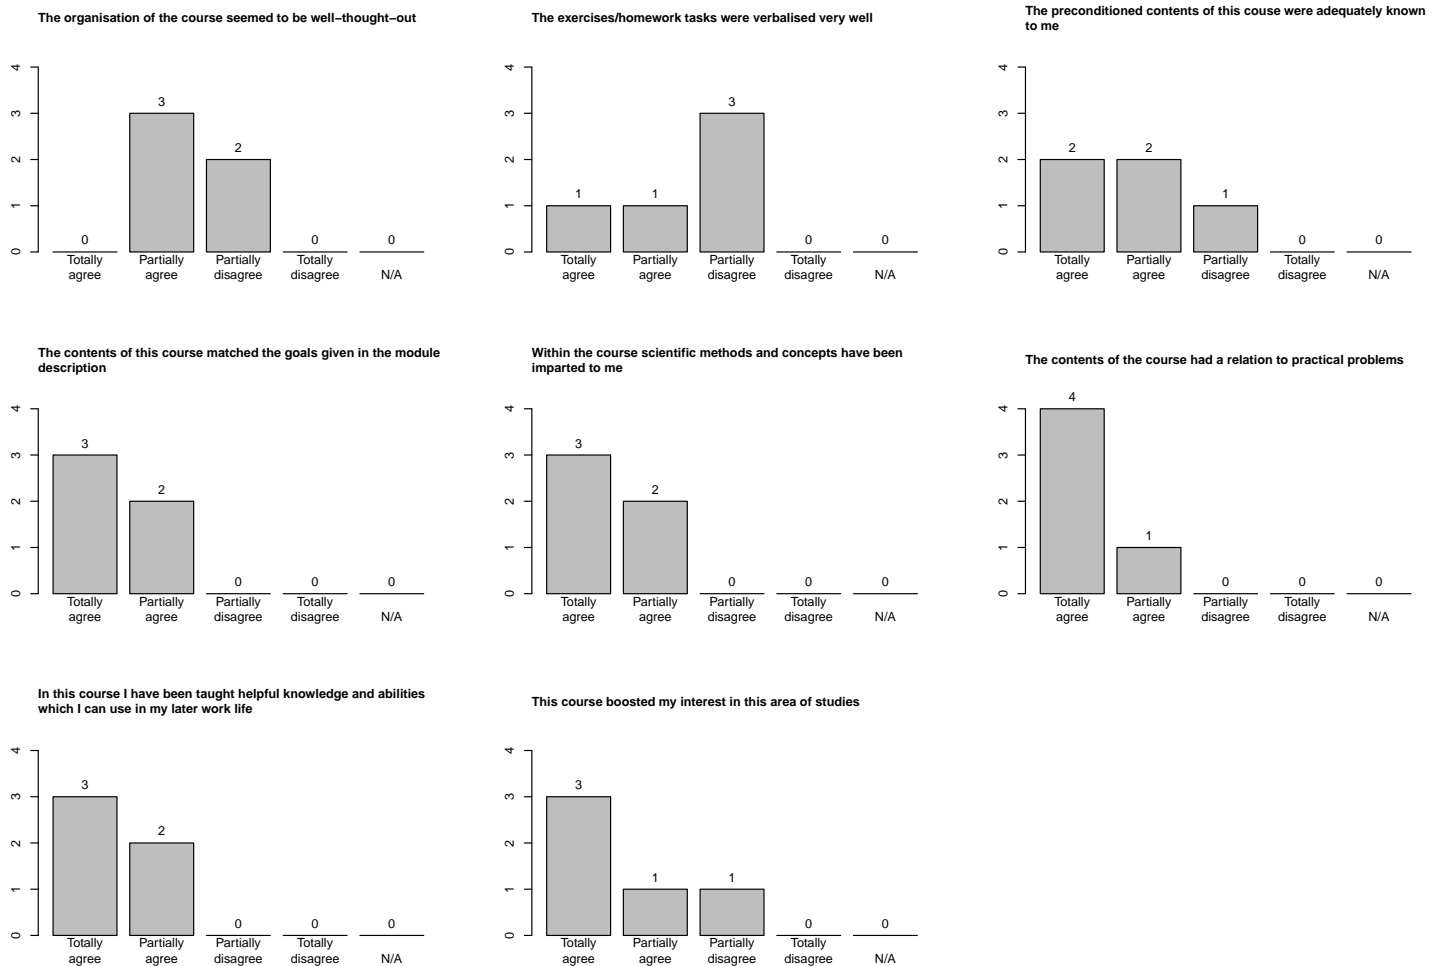

1 Please rate the quality of the lecturer's teaching.

2 Please rate the organisation of the course.

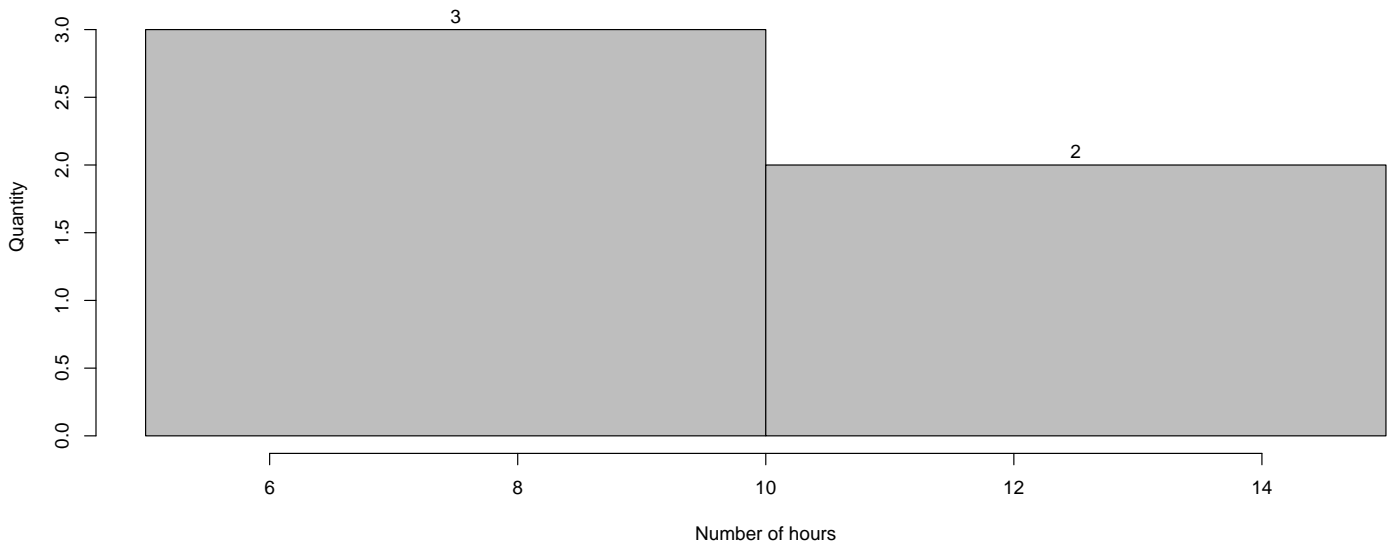

3 Please rate how the following statements fit your opinion.

4 Please estimate the effort and complexity of this course.

5 How many hours per week did you spend on this lecture (including the visit of the lecture and exercise groups) on average?

6 Please assess the value of the exercise groups to help understanding the presented topics.

7 Please rank the size of the rooms and exercise groups.

8 Please compare your interest in the topics of the course before and after visiting the course.

9 Please give an overall rating of the course on a scale from excellent (1) to very poor (6).

10 Comments

Which things of the course did you like?	What could be improved?	You can leave remarks and feedback to our survey here.
Overall very interesting topics. Very good explanations	The main problem of this lecture is the lack of support material online (slides, lecture notes etc.), Another problem is the inexact or confusing exercise enumeration.	
	Slides and lecture notes could be improved

very interesting and usefull topic	organization needs to be better: course material should be uploaded each week, assignment sheets should be put online on time; too much effort for a 6 credit course
