10 Freitextkommentare

Was hat dir an dieser Lehrveranstaltung gut gefallen?	Was könnte noch besser gemacht werden?	Hier hast du Platz für weitere Anmerkungen und Feedback zu unserem Fragebogen.
The amount of information is appropriate. The lectures are rather interesting. The exercises clarified which kind of information is important for the exam and which is rather irrelevant.	The slides from the exercises are still not available on the website. The lecture slides should be put on the website before the lecture or at least on the same day.	
I like professor's language skills. I can easily understand what he wants to tell and I like the way he makes the course more enjoyable.		
Very dynamic the way the professor teach.	More exercise samples	
nice atmosphere and entertaining lecture style, was fun to follow Prf Manthey during the lecture.	Slides should be downloadable prior the corresponding lecture.	
	I would like to have more practical exercises, where we can apply the theoretical put in real life.	
	The slides are full of contents.	
It was clean and the prof described all things. and there were nothing without describing.	If the exercise was in another day it would be better. because we could study and then come to exercise and if we could work with app. it would be better.
