7.1 Which aspects of the course did you like?

the ability to choose a project to deal with

Background on photography overview over redent research hands

Course Project

Application of research on interesting photography related problems

Exercises were really hard sometimes

It was very interesting topic for me as well as very new

7.2 What could be improved?

Team would be nice

More theory

Either easier exercises or dont count EX. points for the final grade. It's quite demotivating

structure or the lectures!

7.3 You can leave remarks and feedback to our survey here.

I think the project offered were quite difficult and it might be the reason why so many people dropped

the lecture after offering the projects

Thanks!
