#### 7 Free text comments

#### 7.1 Which aspects of the course did you like?

Exercises!

#### 7.2 What could be improved?

Concept of Lecture + Exercise

Correcting the assignment sheets.

If they know that the actual lecturer is missing the next semester they could probably look for a appropriate substitute who actually teaches cryptography

The exercises should be based on techniques from the lecture. Often you need to a lot of googling.

### 7.3 You can leave remarks and feedback to our survey here.

It's not clear what the exam will look like. Since you would assume it's similar to the exercises, while in this case the exercises do not seem overly correlated to the lecture.

Hence it's unclear how much lecture trivia will be needed in the exam.
