give students sometime to understand the slides then goto next slide

More arguments for the points from the exercise sheets. Now we only get the sum of all points without explanation

Sometimes speed is too high. For example about Boltzmann machines I had to watch lecture in the Internet

7.3 You can leave remarks and further feedback here.

I did not do the exercises Just visited the course to find out more about Computer Vision

Thanks for your lecture!

Also I don't remember, but in the slides there is no link to the source lecture about RBM
Everything else mostly is fine
