## 6 Abschließende Bewertung des Moduls

Note:

### 6.1 Hältst du die Vorlesung der Dozent:in für lehrpreiswürdig und falls ja, warum?

No  
 He is really very friendly and very cooperative, even he replies emails really quick. His teaching style is very different from other lecturer, though it's very flexible for students and we have learn a new way to learn from this course.

## 7 Freitextkommentare

### 7.1 Was hat dir an dieser Lehrveranstaltung gefallen?

It is hybrid.  
 You can work at your own speed since everything is already uploaded.  
 I like that all the videos of the lecture are already uploaded before the course started. But the course is little hard to understand and there are so many things to even finish in one semester.

## 7.2 Was könnte noch besser gemacht werden?

Peer-to-peer feedback is basically a good idea, but it often doesn't work out and ends in a lack of feedback. In addition, the solutions from the tutorials are not always completely clear or sometimes incomplete. Providing a sample solution would be very helpful here.

There are no sample solutions for the exercise sheets. The exercises are presented by students and it is sometimes hard to understand the solution. Oftenly the presented solution than was wrong and it was only told what is wrong instead of presenting a complete correct solution.

should provide answers for exercises

I think if there are solutions for the exercises is available, then it would have been a great help to prepare for the exam.
