Absolutely! The lecture was clearly structured and easy to follow. I enjoyed it a lot.

7.1 Was hat dir an dieser Lehrveranstaltung gefallen?

I really liked the length of the lectures :)

Personally, i could not attend the exercises due to a scheduling issue, so the solutions were a big help. Generally speaking, the overall course was very well structured and enjoyable. I'll definitely recommend it to anyone I know!!

That there was no exam admission criterion

7.2 Was könnte noch besser gemacht werden?

The lecturer really just read out loud everything that was on the slides. Often there were examples on the slides, but it would have been much more interesting and activating if these examples would have been shown live.

It's a little bit nit-picky, but I would have really loved it if the course was hybrid, so I could attend the lecture from home. I do not live close to campus and getting there takes a lot of time that I could spend more sensibly (like studying or doing the exercises).

the lecture slides were horrible (e.g. many typos, flaws like divisions by 0, senseless sentences, figures covering the text)
