Ergebnis der Online-Umfrage. Anzahl der Teilnehmenden: 7.
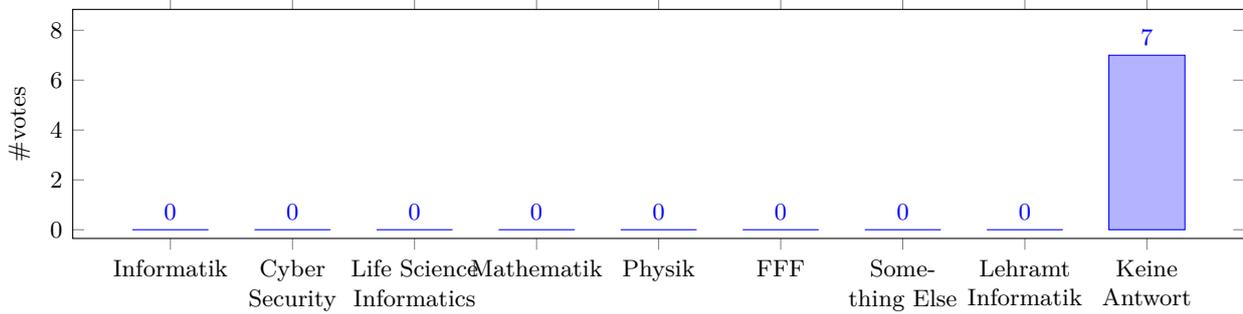

Die Umfrage fand in den Tagen nach der Veranstaltung statt.
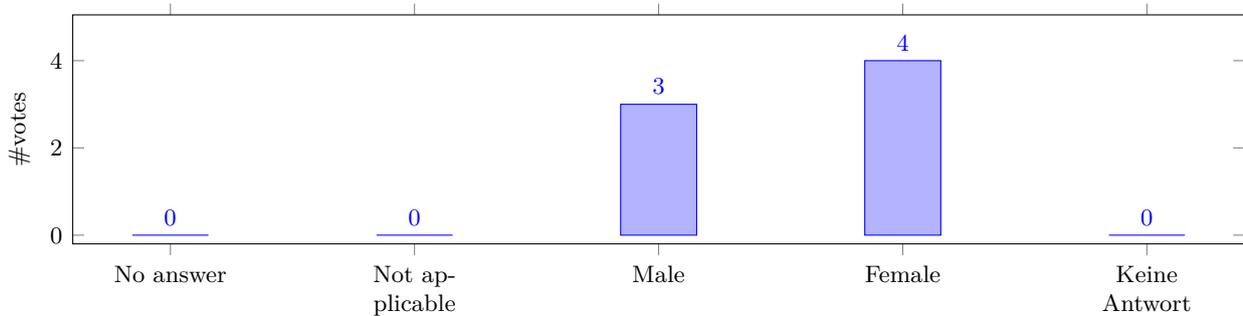

1 Demographic data

1.1 Is this your first time taking the module?

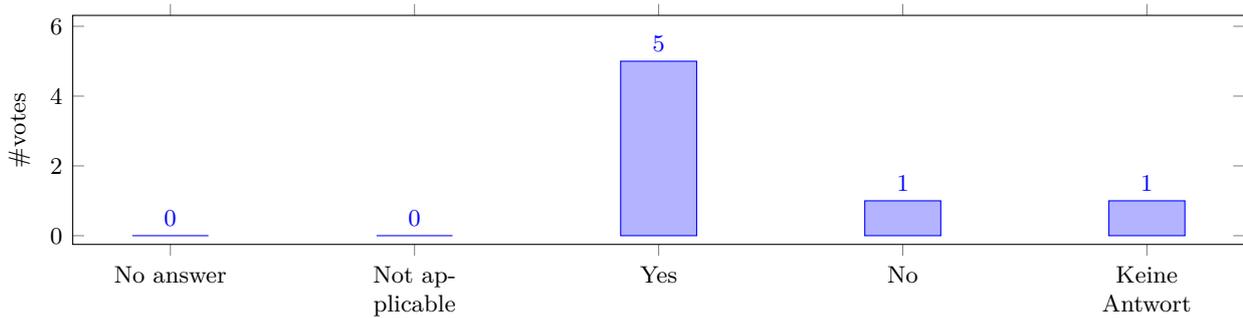

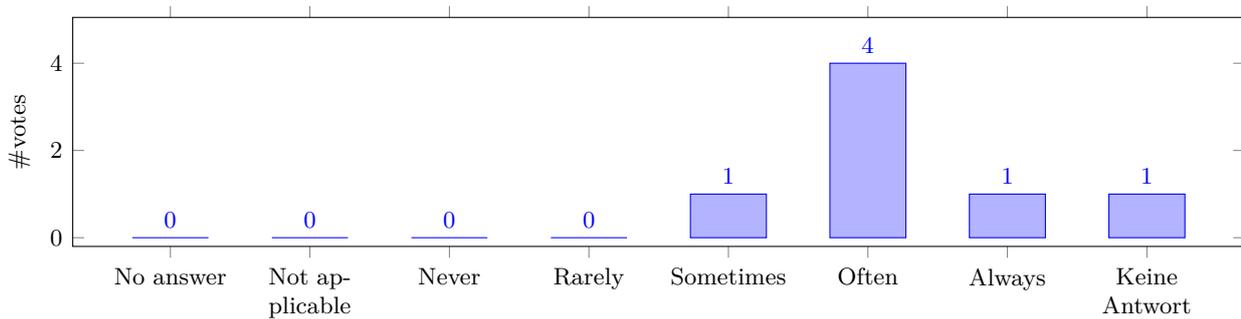

1.2 Which subject(s) are you studying?

## 1.3 Which of these genders describes you best?

2 Lecture
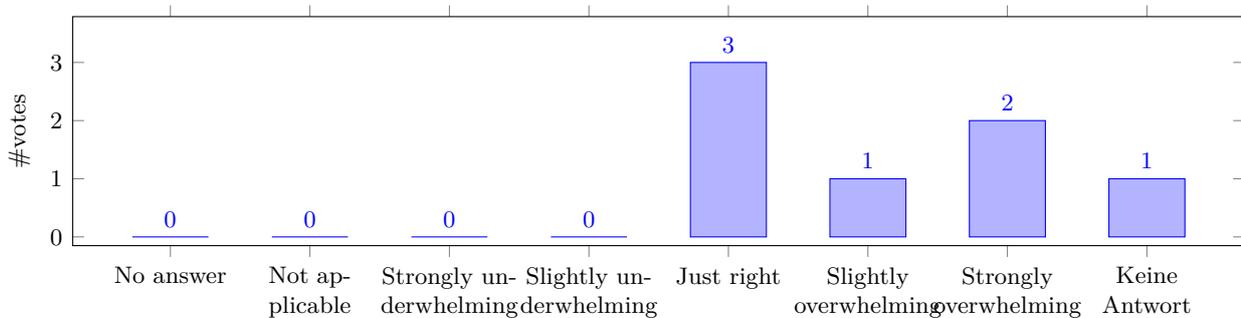

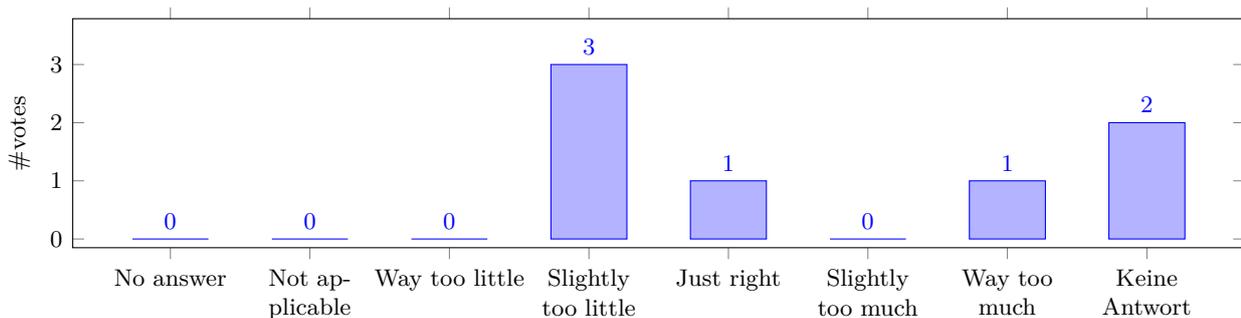

2.1 How often did you attend the lecture?

2.2 How much did you understand during the lecture?

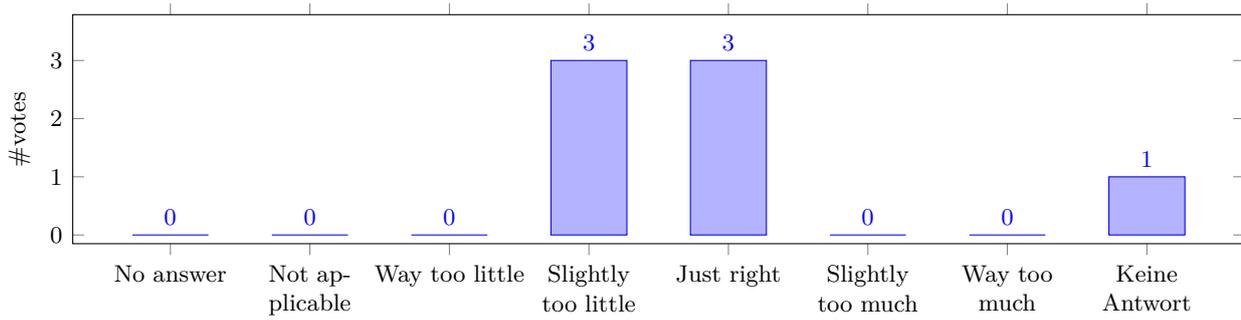

## 2.3 How did you perceive the level of difficulty of the topics covered?

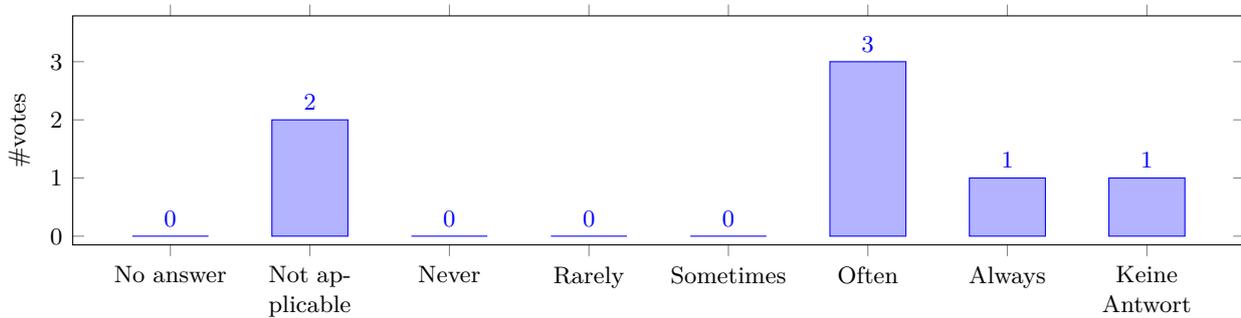

2.4 How detailed were the topics explained?

## 2.5 To what extent were topics illustrated with examples?

4.6 Is the tutor competent in his subject?

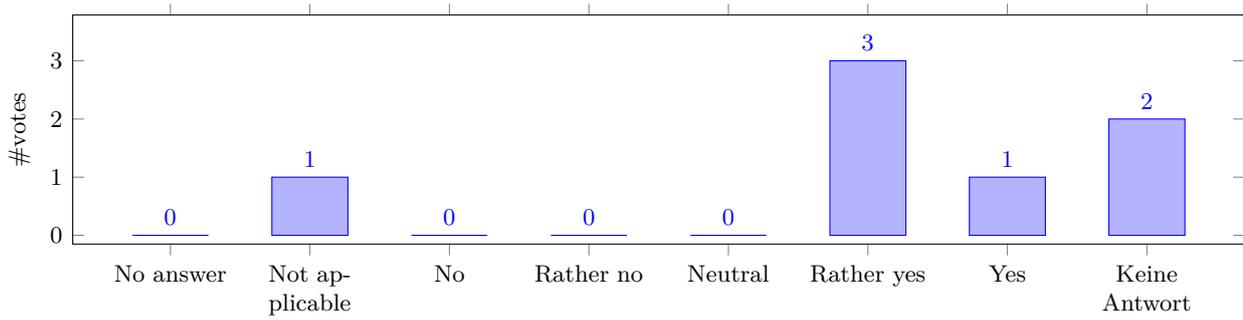

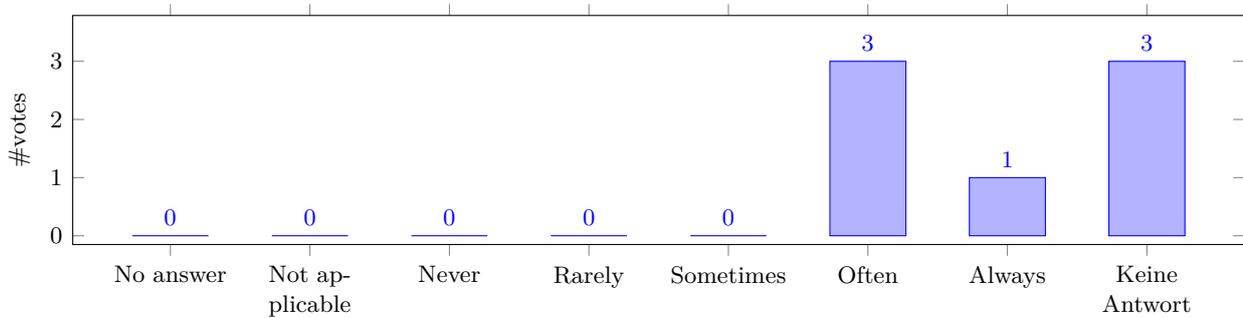

4.7 Did the tutor respond to questions satisfactorily and clearly?

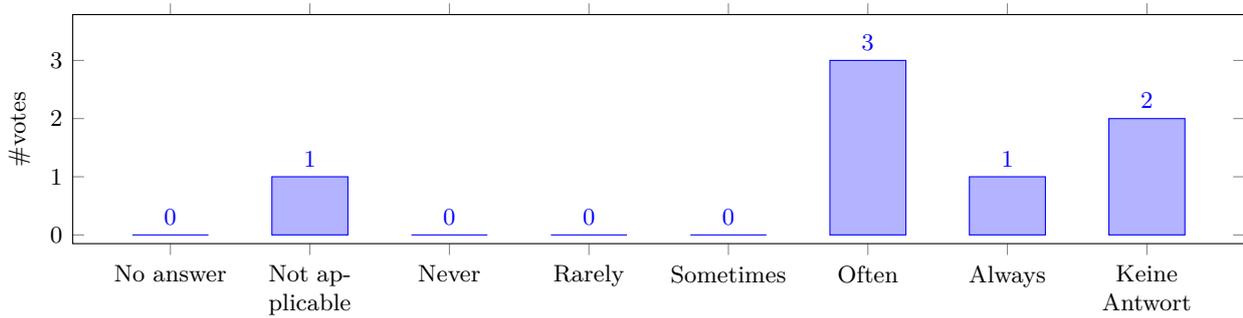

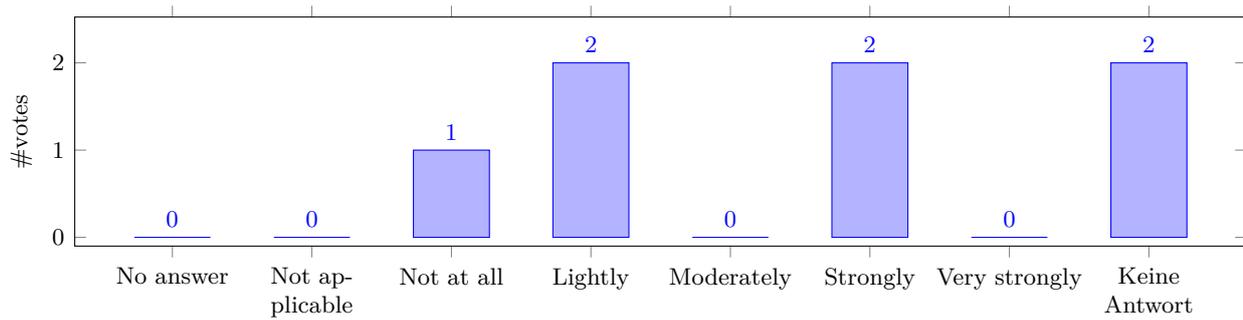

## 4.8 Was the tutor available for questions etc. outside of the exercise group?

4.9 Were the tutor's corrections of exercise sheets comprehensible?
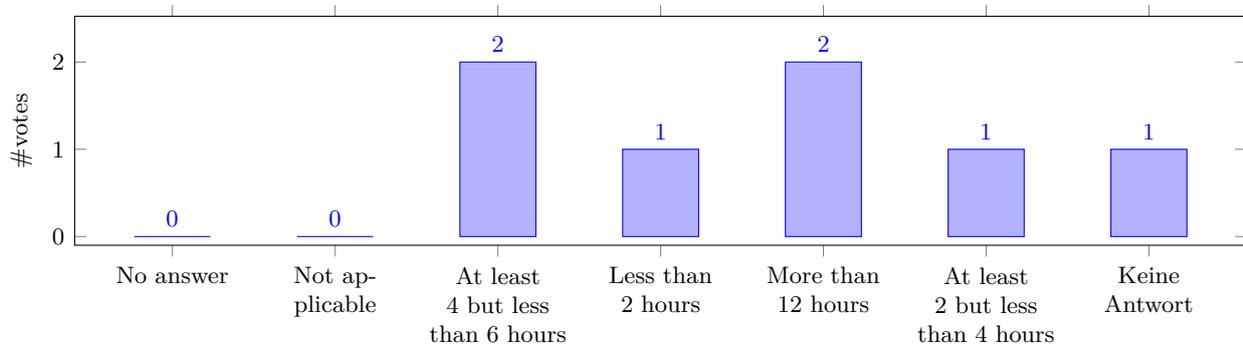

4.10 How much did the exercise group help you to achieve your learning goals?

## 4.11 Did you feel comfortable in your exercise group?

4.12 How many hours did you spend in total on exercise group and exercise sheets per week?

5 Module

5.1 The amount of content in the module was...
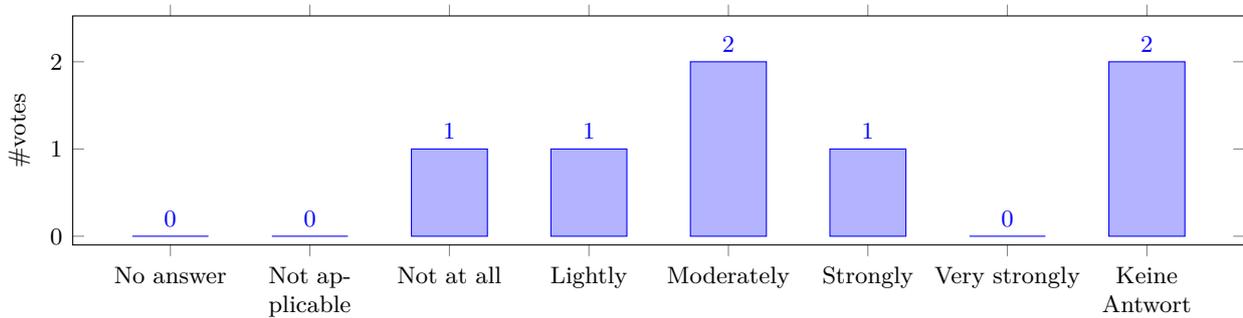

5.2 Did the structure of the module follow a clearly recognizable concept and a logical sequence?
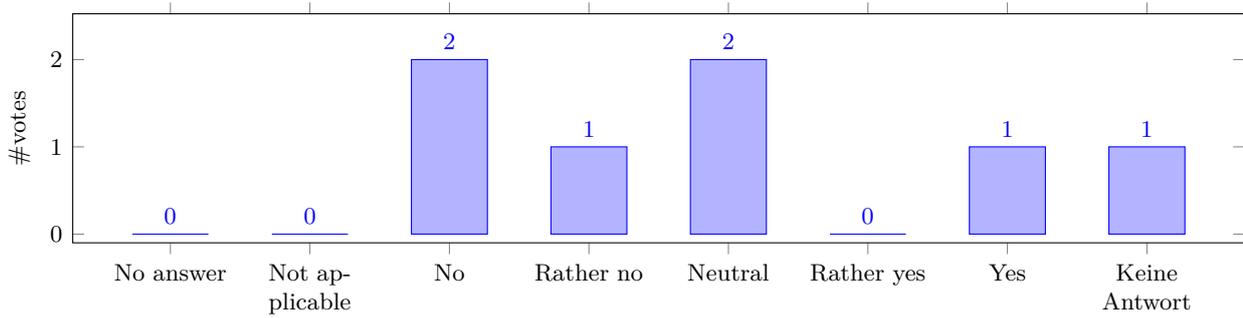

5.3 To what extent was the content of the module motivated in an overarching context (e.g. through references to research/practise)?

5.4 Do you think that you have achieved the learning objective of the module?
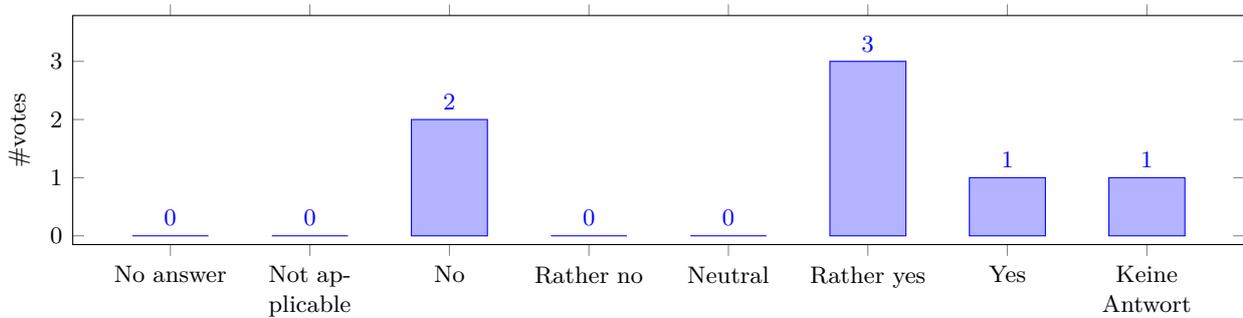

5.5 Do you feel well prepared for the exam?
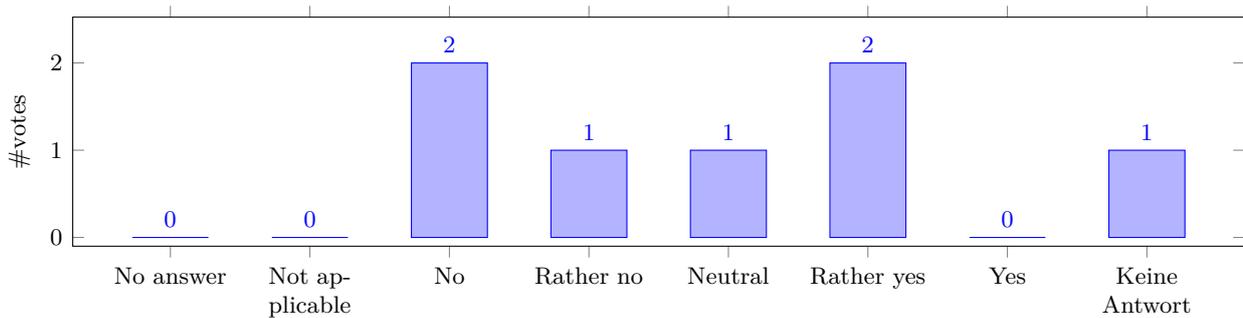

5.6 Did the module meet your expectations?

5.7 Would you recommend this module to others?

5.8 Your interest in this topic has...

5.9 Do you think the lecturer would be worthy of an award (teaching prize) for this lecture?

6 Free Text Comments

6.1 What did you like about this module?

- many different topics explained briefly to advertise other lectures and research topics

## 6.2 What did you not like about this module?

The lecture is supposed to give an introduction into IT security. I was unfamiliar with most of the topics and struggled very hard in completing the exercise tasks. The slides were little to no help for that. The tasks often appeared like you had to have deep knowledge of the topics already. The lectures introducing other full lectures offered in later semesters seemed like the lecturers tried to squeeze the workload of several lectures into one which is entirely too much for an introductional series that addresses a new topic every week.
The topics were too much for too little time. It seemed like the profs tried to do as much as they would usually do in half the semester within 90 minutes and thus there was no real preparation about the topics. besides that the sheets were only published after the lecture (thursday afternoon) and the deadline was tuesday afternoon. So we had abound 5 days time with 2 being the weekend, which is not only unrealistic for the workload we were given but also very bad timing with the weekends. This module also did not help prepare me for the other cyber security modules, as i had the feeling that i need to listen to the actual modules first before parttaking in this course.
- some topics are not that interesting or well explained (eg key exchange, anonymization)

6.3 What could be improved in the future?

Give more help in the lecture slides for the exercises
- Switch the slots for exercise and lecture so we have more work days to actually work on the exercise sheets (thursday afternoon to tuesday morning is not really practical when one has other lectures as well, especially if those take place thursday to monday)

6.4 Here you have space for further comments and feedback on the module.

6.5 Here you have space for comments and feedback on the design of the evaluation survey.
